The approval of the Postgraduate Dissertation from the Language Centre of the Cyprus University of Technology does not necessarily imply acceptance of the author's views on behalf of the Department.

Throughout my MA in CALL program, I have established support from great educators. My dissertation supervisors Dr Christina Giannikas and Dr Antigoni Parmaxi have been outstanding mentors, collaborators supporting my effort through a constant contribution of assistance and direction. I would also like to thank my MA in CALL teachers who offered me valuable knowledge concerning technology implementation in language learning and teaching. Through the duration of my MA in CALL educational experience, I also met colleagues who became friends and collaborators in search of educational improvement. The most valuable and influential supporters though have been my family members and friends. My husband and my two daughters, my parents and my friends. I could never forget the students and their parents who participated in this research and made it possible for me to acquire an MA title. I would like to thank them all for their great support, the inspiration and empowerment I needed especially during the Coronavirus Pandemia and the lockdown. Their love stimulated me to successfully complete this work.
