

Supplementary Material

1. Typical Consent form

UNIVERSITÉ DE FRIBOURG
UNIVERSITÄT FREIBURG

Study Consent Form

Title of the Project: Development of the 'People with Aphasia and Other Laypeople Involvement (PAOLI) Framework', a comprehensive conceptual framework on PPI in aphasia research.

Name of Lead Researcher: Marina Charalambous PhD Researcher (University of Fribourg, Switzerland)
Primary Supervisor: Jean-Marie ANNONI MD, PhD, Professor of Neurology (University of Fribourg, Switzerland)
Secondary Supervisor: Maria Kambanaros, PhD, Professor in Speech Pathology (University of South Australia)

Please Initial Box

- I confirm that I have read the invitation letter for the above study. I have had the opportunity to consider the information, ask questions and have had these answered satisfactorily.
- I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason and without there being any negative consequences or my legal rights being affected. I understand that should I decide to withdraw then information already collected will be included in the data analysis in the study.
- I understand that relevant sections of my data collected in the study may be looked at by authorised individuals from the University of Fribourg, the research team, and regulatory authorities as part of the research audit process. I give permission for these individuals to have access to these records.
- I understand that my name will not be identified during the Delphi survey or in the reports resulting from the research and my personal details will be kept strictly confidential.
- I agree that non identifiable quotations and data may be used in this study and may be published in the research thesis, articles, on the study website and presented at conferences.
- I will not receive any payment for participating in this research study.
- I agree to take part in the above study.
